SECURITY GUARDS

CX1

An affordable retractable security grille suitable for domestic purposes. The grille provides a strong physical barrier for protection of windows and doors, including patio doors and is an effective visual deterrent against attack.

CX2

The market leading CX2 is a certified retractable security grille for protection of windows and doors in domestic and commercial properties. Independently attack tested the CX2 is the first choice when an insurance rated grille is required.

CX3

The ultimate grille for strength and flexibility of installation. The CX3 is a retractable security grille which is suitable for security of windows and doors in commercial premises and high risk environments.

PRODUCT INFORMATION

- . Patented Crosslinx Rivetless System for added strength which provides a much stronger and more attractive alternative to rivets.
- . Made to measure to meet individual customer requirements.
- . A low profile bottom track allows ease of access to wheelchairs and pushchairs.
- . Patented multi-point slam shut lock ensures outstanding protection and ease of use. A number of grilles can also be operated from a single key.
- . Anti-jemmy security strip protecting the lock from attack with a crowbar or other lever.
- . Strong durable finish in a wide choice of colours to blend in with any colour scheme – supplied in white as standard.
- . Exceptionally low maintenance with a zinc plated anti-rust finish.
- . Planning permission is not usually required.
- . CX2 has been tested to the industry standard LPS 1175 Security Rating 1 and is a Secured by Design 'Police Preferred Specification'.

Our policy is one of continuous product development and we therefore reserve the right to vary the product specification in this sales brochure
